

FOOD INDUSTRY

Sosani

Description

Industrial cleaner and decalcifier, based on especially selected inorganic acids and inhibitors.

General characteristics

Physical State	liquid
Odour	odourless
Viscosity (20°C)	1mPa.s
Vapour pressure (20°C)	2332 Pa
Relative density (20°C)	1,095 kg/L
pH	0.2
Ignition Point	/
Flash Point	/
Boiling point/boiling range	100°C
Melting point/melting range	0°C
Solubility in water	completely soluble

Properties

- Fast working.
- Economical in use.
- Efficient in use.
- Does not attack aluminium, stainless steel, PVC or rubber.

Safety measures

Applications

- Cleaning and decalcifying industrial machines, sanitary fittings, etc.
- Do not use on calcareous stones as marble, concrete, limestone, etc.
